

Experienced

Engineer Design-IND

Chennai, India

This position replacement for Mr. Prathipraj Rajkumar - Engineer (Design)

What you'll do

1. Develop and modify 3D models using CATIA V5.
2. Create detailed 2D manufacturing drawings with GD&T and dimensioning.
3. Interpret customer requirements, technical specifications, and engineering standards.
4. Perform design calculations and feasibility studies for product development.
5. Prepare BOM (Bill of Materials) and engineering documentation.
6. Coordinate with manufacturing, quality, and project teams to ensure design compliance.
7. Support engineering change requests and design revisions.
8. Conduct design reviews and implement improvement recommendations.
9. Ensure designs meet quality, cost, manufacturability, and performance requirements.
10. Maintain engineering data and documentation in PLM/PDM systems.

What we are looking for

1. Bachelor's Degree in Mechanical Engineering or related discipline.
2. Experience in Automotive, Aerospace, Industrial Equipment, or Heavy Engineering domains.

What we offer

The team is growing at the same time our Group grows. Therefore, there are many opportunities for you to grow with us!
