Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Noida, India

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- We are seeking a skilled iOS Developer with 3-4 years of experience to join our dynamic team. As an iOS Developer, you will be responsible for designing, developing, and maintaining cutting-edge iOS applications. You will collaborate closely with our product development team to deliver high-quality, user-friendly mobile applications. Responsibilities: Design and build advanced applications for the iOS platform. Collaborate with cross-functional teams to define, design, and ship new features. Unit-test code for robustness, including edge cases, usability, and general reliability. Work on bug fixing and improving application performance. Continuously discover, evaluate, and implement new technologies to maximize development efficiency. Maintain code quality, organization, and automation. Stay up-to-date with industry trends and best practices in mobile development. Requirements: Bachelor's degree in Computer Science, Engineering, or a related field. 3-4 years of proven software development experience in iOS development. Proficient in Swift and Objective-C. Solid understanding of the full mobile development lifecycle. Experience with RESTful APIs to connect iOS applications to back-end services. Familiarity with cloud message APIs and push notifications. Knowledge of code versioning tools such as Git. Experience with performance and memory tuning tools. Familiarity with continuous integration. Excellent problem-solving skills. Ability to work independently and as part of a team in a fast-paced environment. Strong communication and collaboration skills. Preferred Qualifications: Experience with Agile/Scrum development methodologies. Published one or more applications on the App Store. Experience with third-party libraries and APIs. Knowledge of other web technologies and UI/UX standards.
