# Plant IT Engineer

Full Time - Bratislava, Slovakia

Join Our Team as a Plant IT Engineer!

We're not just looking for a candidate – **we're looking for a teammate, a colleague, a friend. Our team is searching for that missing piece that will fit perfectly into our structure and help us grow together.**

Are you an IT enthusiast who can program a production line, set up networks, prepare computers, identify issues, and propose solutions? Do you enjoy working with people but can also thrive independently? Does the fast-paced environment of an automotive plant excite you rather than intimidate you?

If yes – come join us! You'll enjoy being part of our team.

## Vaša úloha

### Key Responsibilities

- Overall responsibility for smooth operation of all plant IT systems (software & hardware)
- 24/7 support of JIS production and safety-relevant tracking/tightening systems
- Support of EDI, Warehouse Management, demand planning, purchasing, invoicing and MES (Linux-based)
- Management of Windows and Unix/Linux networks, PC applications (MS Office, tools), time management and access control systems
- Participation in IT projects in line with the Motherson IT roadmap

### Process & System Development

- Continuous improvement and optimization of IT-supported processes across departments

### Planning & Global Cooperation

- IT demand and budget planning in alignment with plant, regional management and Corporate IT
- Implementation and alignment with global IT standards and organization

### Compliance & Security

Responsibility for information security at the plant in line with SAS IS Policy

## Čo hľadáme

### What We Expect

- Strong IT background with at least 3 years of professional experience
- Solid knowledge of industry technologies and cross-functional IT systems
- Up-to-date technical expertise, especially in Linux environments
- Experience with cross-cutting technologies and system integration
- Project experience and collaboration with internal stakeholders
- International or cross-cultural experience in an IT environment is an advantage

## Čo ponúkame

For us, the highest values are time and health.

- Work-life balance is not just a phrase
- 7.5-hour working day
- Flexible start and end of working hours

We want you to have time not only for performance, but also for life.

- Multisport card as an option to relax and stay active after work

We care about your future as much as your present.

- Contribution to supplementary pension savings (DDS)
