

Experienced

Deputy Manager Quality

Gujarat, India

Results-driven Deputy Manager – Quality with strong experience in the **automobile industry**, specializing in **quality assurance, process improvement, and defect prevention**. Skilled in **root cause analysis, audits, and compliance with industry standards**. Proven ability to **lead cross-functional teams, enhance product quality, and ensure customer satisfaction**. Adept at implementing **continuous improvement initiatives, reducing defects, and driving operational excellence** in fast-paced manufacturing environments.

What you'll do

- Responsible for overseeing quality assurance processes in automobile manufacturing, ensuring compliance with standards and customer requirements. Conduct audits and root cause analysis, and implement corrective and preventive actions (CAPA). Monitor production quality, reduce defects, and drive continuous improvement initiatives. Coordinate with cross-functional teams to resolve issues. Maintain quality documentation, support new product development, Customer Handling, and ensure adherence to safety and regulatory guidelines.

What we are looking for

- Detail-oriented Deputy Manager – Quality with solid experience in the automobile industry, specializing in quality assurance, process control, and continuous improvement. Strong expertise in root cause analysis, audits, and defect reduction. Proven ability to lead teams, improve production quality, and ensure compliance with standards. Skilled in problem-solving, documentation, and cross-functional coordination to achieve operational excellence and customer satisfaction.
