Experienced

# Production Leader

Full Time - Kenitra, Morocco

We are seeking an experienced and motivated Production Leader to join our new greenfield project in Morocco within the locomotive rolling stock industry. This is a unique opportunity to be part of a major industrial investment, contributing from the ground up to the launch and ramp-up of a modern manufacturing facility.

The successful candidate will play a key role in building and leading the production team, setting up operational processes, and ensuring the delivery of high-quality, efficient production from day one.

- Active participation in the greenfield setup phase – from layout planning to equipment installation and team formation
- Lead and supervise daily production operations in line with project timelines and quality expectations
- Build, train, and develop a high-performing production team
- Ensure adherence to safety, quality, and efficiency standards across all operations
- Implement and promote Lean Manufacturing practices and continuous improvement culture
- Collaborate with cross-functional departments (Engineering, Maintenance, Quality, Supply Chain)
- Monitor production KPIs and drive actions to meet operational targets
- Support industrialization and process optimization initiatives specific to railway rolling stock production

- Industrial, mechanical, Electrical Engineer from big school (ENSEM, ENSAM, EMI, ...or Equivalent)
- Minimum 5 to 7 years of experience in a production leadership role within a manufacturing very structured environment
- Prior involvement in greenfield projects or new plant/line launches is highly desirable
- Industry background in Automotive, railway, or heavy industrial equipment manufacturing
- Strong knowledge of Lean Manufacturing, 5S, Kaizen
- Fluent in English

- Key role in a strategic international greenfield investment
- Opportunity to shape operations and organizational culture from the ground up
- Competitive salary and comprehensive relocation package
- Dynamic, multicultural work environment
- Long-term career development prospects within a leading industrial group
