ENGINEER

Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Pune, India

At Motherson, we’re committed to creating long-term jobs and advancing global careers. Featured on TIME’s World’s Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Monitor WIP inventory at all production stages such as Injection Molding, Coating, Metallization, Assembly, and Packing. Ensure optimum WIP levels are maintained to support production plans. Identify and resolve bottlenecks affecting material flow. Coordinate daily with Production, Planning, Quality, and Stores teams. Track movement of semi-finished products between processes. Ensure timely availability of components and sub-assemblies. Maintain accurate WIP stock records in ERP/SAP systems. Perform daily cycle counts and physical verification. Investigate and resolve inventory discrepancies.

What we are looking for

- -

What we offer

- Health insurance and other employee welfare benefits.
- Recognition and reward programs for outstanding performance.
- Opportunities to participate in Kaizen, Lean Manufacturing, and continuous improvement projects.
- Safe, inclusive, and quality-driven workplace culture.
- Learning and development programs to enhance technical and leadership skills
