MPP Global Sustainability Coordinator

Full Time - Modules & Polymer Products - Samvardhana Motherson Reydel Companies (SMRC) - Le Plessis Robinson, France

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Assess & reduce environmental impact of MPP products with particular emphasis on carbon footprint
- Carbon Footprint Strategy: Develop & implement methodologies for calculating Corporate Carbon Footprint & Product Carbon Footprint & Life Cycle Assessment in line with ISO standards 14064, 14067, 14040, 14044
- Compliance & Customer Requirements: Analyze legal & OEM requirements for PCF and ensure compliance especially in response to customer RFQs
- Sustainability Integration: Embed sustainability into financial planning, sourcing, product design & development—promoting eco-design, green materials & low-carbon products
- Cross-Functional Support: Assist other departments with carbon footprint considerations in transportation, packaging & energy sourcing, including renewable energy strategies
- Reporting & Coordination: Lead sustainability reporting & coordinate overall strategy implementation

What we are looking for

- Engineering or technical degree with specialization in polymer production
- Over 2 years in the automotive sector focused on product development and supplier collaboration
- Strong knowledge of polymer processes and standards
- Experience with environmental management systems (IATF 16949, EMAS, ISO 14001, ISO 45001)
- Advanced in IT tools
- Fluent in English
- Strong analytical and reporting capabilities, especially for PCF and CCF
- Effective communicator and team player with sustainability mindset

What we offer

- International multicultural environment
- Exciting challenges supported by an engaged and skilled team
- Continuous Learning and Development Opportunity
