Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Pune, India

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Execute preventive, predictive, and corrective maintenance activities for plant equipment.
Minimize machine downtime through effective troubleshooting and root cause analysis.
Ensure timely closure of breakdowns and maintenance work orders.
Monitor machine health and recommend improvement actions.
Maintenance of Air Compressors, Chillers, Cooling Towers, DG Sets, HVAC systems, and Electrical Panels.
Monitor utility consumption and improve energy efficiency.
Ensure uninterrupted availability of utilities for production.
Lead TPM activities and machine improvement projects.
Implement Kaizen, Poka-Yoke, OEE improvement, and cost reduction initiatives.
Participate in breakdown analysis and CAPA implementation.

What we are looking for

- -
