

Experienced

Engineer Tool Room Maintenance

Chennai, India

This position replacement for Manikandan E - Tool Maintenance

What you'll do

1. Inspect, maintain, and repair tools, dies, jigs, fixtures, and molds used in production.
2. Conduct preventive maintenance schedules to reduce tool wear and avoid breakdowns.
3. Troubleshoot tool-related issues during production and implement corrective actions.
4. Ensure dimensional accuracy of tools using precision instruments like micrometers, calipers, and gauges.
5. Document maintenance activities, repairs, and tool usage logs.
6. Maintain cleanliness and proper storage of tools to ensure longevity and safety.
7. Collaborate with production and engineering teams to optimize tool performance and reduce downtime.

What we are looking for

1. ITI / Diploma/ Engineering in Mechanical, Tool & Die, or Production Engineering.
2. Minimum 2-5 years of experience in tool maintenance or tool room operations.
3. Familiarity with CNC/VMC tooling and basic machining practices.

What we offer

The team is growing at the same time our Group grows. Therefore, there are many opportunities for you to grow with us!
