

Experienced

Assistant Manager Paintshop

Chennai, India

This position replacement for Mr. Abdul Wahid Ansari A L- Assistant manager (Paint Shop Production)

What you'll do

1. Develop, program, and fine-tune robotic painting processes (ABB, Fanuc, Dürr systems).
2. Troubleshoot robot paths, spray parameters, and sequencing issues.
3. Implement process improvements to reduce cycle time and paint consumption.
4. Ensure paint thickness, adhesion, gloss, and curing meet OEM standards.
5. Conduct trials for new paint formulations and robotic spray patterns.
6. Collaborate with QC teams to resolve defects (runs, orange peel, overspray).
7. Oversee paint booths, curing ovens, and utility systems.
8. Schedule preventive maintenance for robots, atomizers, and conveyors.
9. Ensure compliance with ISO/TS standards and environmental regulations.
10. Train engineers and technicians in robotic programming and paint application.
11. Supervise daily operations and manpower allocation.
12. Drive continuous improvement initiatives in safety, quality, and productivity.

What we are looking for

1. BE/B.Tech & Diploma in in Paint Technology Mechanical, Chemical, or Relevant Field.
2. Minimum 7 years in paint shop operations, with at least 3-5 years in robotic programming.
3. Familiarity with Yaskawa, Takubo, MES/SCADA, Fanuc & ABB systems for paint shop automation.

What we offer

1. The team is growing at the same time our Group grows. Therefore, there are many opportunities for you to grow with us!
